STUDENT’S COMMENTS

« Studying abroad has never been only about perceiving academic knowledge, it is about life experience. Diploma in Legal Studies is a perfect opportunity to get general understanding of EU and French legal systems. Professors never limited themselves giving lectures only, but they provided an opportunity for students to express their opinion in open discussions or presenting the project. An outstanding experience was rendered by Grenoble Law School - visiting the Court. We had a chance to enter the criminal case hearing and talk to the judges about their job, duties and experience. We were pleased to be a part of this studying program organized by Grenoble Law School. »
