

UE Tectonics-Metamorphism field course

 ECTS
3 credits

 Component
UFR PhITEM
(physique,
ingénierie, terre,
environnement,
mécanique)

 Semester
Automne

- > **Teaching language(s):** French, English
- > **Teaching type:** Field trips
- > **Open to exchange students:** Yes
- > **Code d'export Apogée:** PAX9SRAC

Presentation

Description

Students will learn to recognise and interpret markers of ductile deformation in different structural and metamorphic contexts.

Field workshop offered every other year, alternating with the Field Workshop Petrology.. This module is available in even-numbered years (2018, 2020, etc.)

Course parts

UE Field workshop tectonics-metamorphism - TERRAIN	Terrain	30h
--	---------	-----

Recommended prerequisites

Lithosphere Dynamics course

Period : Semester 7
