

UE Topics in biological chemistry

 ECTS
3 credits

 Component
UFR Chimie-
Biologie

- › Teaching language(s): English
- › Open to exchange students: No
- › Code d'export Apogée: YACB9U33

Presentation

Description

This course will (i) provide advanced knowledge on biological therapeutic targets to facilitate understanding of projects at chemistry-biology interface, (ii) introduce current and innovative projects bringing together chemists and biologists, and (iii) give methodologies to effectively synthesize scientific oral presentation and publication.

Course parts

| | | |
|--|----------------|-----|
| UE Topics in biological chemistry - CM | Lectures (CM) | 15h |
| UE Topics in biological chemistry - TD | Tutorials (TD) | 5h |

Period : Semester 9
