

UE Topics in biological chemistry

- › Teaching language(s): English
- › Open to exchange students: No
- › Code d'export Apogée: YACB9U33

Presentation

Description

This course will (i) provide advanced knowledge on biological therapeutic targets to facilitate understanding of projects at chemistry-biology interface, (ii) introduce current and innovative projects bringing together chemists and biologists, and (iii) give methodologies to effectively synthesize scientific oral presentation and publication.

Course parts

UE Topics in biological chemistry - CM	Lectures (CM)	15h
UE Topics in biological chemistry - TD	Tutorials (TD)	5h

Period : Semester 9
