

UE General Physical Meteorology

 ECTS
3 credits

 Component
UFR PhITEM
(physique,
ingénierie, terre,
environnement,
mécanique)

 Semester
Automne

- > **Teaching language(s):** English
- > **Open to exchange students:** Yes
- > **Code d'export Apogée:** PAX7ATAA

Presentation

Description

Meteorology is a fascinating subject. Because of its very nature, it is never constant or boring. General Meteorology consists of knowledge of the structure of the atmosphere, physical laws steering the distribution of atmospheric variables, such as temperature, humidity, winds, pressure and dynamics of air masses resulting in changes and weather and climate in different regions of the Earth.

Course parts

UE General Physical Meteorology - TD	Tutorials (TD)	12h
UE General Physical Meteorology - CM/TD	Lectures (CM) & Teaching Unit (UE)	12h
