

UE International School in Soft Nanoscience (ESONN)

Level
Baccalaureate
+5

ECTS
6 credits

Component
UFR PhITEM
(physique,
ingénierie, terre,
environnement,
mécanique)

Semester
Automne

- Teaching language(s): English
- Open to exchange students: Yes
- Code d'export Apogée: PAX9NFAB

Presentation

Description

From 2004, ESONN is a two-week course aimed at providing training for graduate students, postdoctoral and junior scientists from universities and laboratories, all around the world, in the field of Nanosciences and Nanotechnologies. <https://www.esonn.fr>

Period : Semester 9
