

UE Introductory Field Course - Professional project

 ECTS
3 credits

 Component
UFR PhITEM
(physique,
ingénierie, terre,
environnement,
mécanique)

 Semester
Automne

- > **Teaching language(s):** French, English
- > **Open to exchange students:** Yes
- > **Code d'export Apogée:** PAX7STAA

Presentation

Description

This module provides an introduction to the course. It helps place the issues covered by the Earth and Environmental Sciences in context, and guide the students with their training and professional projects. This module consists of:

- (1) a 3-day field workshop for the entire class, which will serve to illustrate the major themes and issues of EES with the help of the exceptional sites found around Grenoble;
- (2) an interview, and the drafting of an educational and professional project by each student;
- (3) seminars for the entire class on the major current issues of EES (mineral and energy resources, telluric risks, climate change, water resources).

Course parts

CMTD	Lectures (CM) & Teaching Unit (UE)	6h
UE Introductory Field Course - Professional project - TERRAIN	Terrain	18h
