3 credits

 Component  
UFR PhITEM  
(physique,  
ingénierie, terre,  
environnement,  
mécanique)

Semester  
Printemps

- › **Teaching language(s):** French
- › **Open to exchange students:** Yes
- › **Code d'export Apogée:** PAX7SRAE

## Presentation

### Description

This module is intended to acquire and deepen the basics of computer programming and computer environments that will be used throughout the Master's programme. It consists of 6 hours of lectures and 18 hours of practical work on computers. The practical sessions are adapted to the level of each student.
