

# UE Projets en Géochimie/Hydrologie et Qualité de l'Eau

 ECTS  
6 credits

 Component  
UFR PhITEM  
(physique,  
ingénierie, terre,  
environnement,  
mécanique)

 Semester  
Automne

- > **Teaching language(s):** French
- > **Open to exchange students:** Yes
- > **Code d'export Apogée:** PAX9HRAI

## Presentation

### Description

*This module deals with the quality and properties of drinking water and wastewater in the form of tutored projects and several site visits, and teaches specific treatment, characterization and implementation techniques (stable isotopes, pumping tests, infiltration tests, geochemical and hydrogeological monitoring of the campus water table, non collective sanitation).*

*Language : French*

### Course parts

UE Projets en Géochimie-CM/TD	Lectures (CM) & Teaching Unit (UE)	13h
UE Projets en Géochimie-TERRAIN	Terrain	33h
