The programme offers the following course(s):

- Portal Molecular and cellular biology 1st year
- Immunology microbiology infectious diseases (IMID)
- Integrative structural biology (ISB)
- Neurobiology Neurosciences (NN)
- Physiology, epigenetics, differentiation and cancer (PhEDC)
- Biology and marketing techniques (BioTechCo)
- Lab science trading (LST)
- Pro2Bio
- PLANTA international (PLANTA-Int)

Presentation

The master's degree in Biology is axed around the main domains of biomedical research in Grenoble. The first year of the master's degree, i.e. the master 1st year’s program named Molecular and cellular biology (MCB) opens to the 7 following master 2 programs:

- Immunology, microbiology, infectious diseases (IMID) program
- Integrative structural biology (ISB) program
- Neurobiology - neurosciences (NN) program
- Physiology, epigenetics, differentiation and cancer (PhEDC) program
- Biologie et techniques de commercialisation (BioTechCo) program (taught in French)
- Lab science trading (LST) program
- Pro2Bio program (taught partly in French and partly in English)

The master in Biology also offers an international PLANTA course.

Students graduating from the master's degree in Biology can look forward to gaining job opportunities throughout the public and private sector, as well as in research settings in various fields of Biology such as cell biology, molecular biology, microbiology, immunology, infectious diseases, neurosciences, physiology, epigenetics, development, biochemistry, structural biology. The programs Pro2Bio, BioTechCo and Lab science
trading open to careers as biomedical engineers (Pro2Bio) and sale engineers (BioTechCo and Lab science trading).

Registration and scholarships

- First year master's degree: If you have completed a bachelor's degree in Science or are enrolled in the final semester of a bachelor's program in Science, you are eligible to apply for the master's degree in Biology.
- Second year master's degree: To be eligible to apply you should have completed, or be enrolled in a first year of a master program in Science, and totalize 60 ETCS.

Public continuing education: You are in charge of continuing education:
- If you resume your studies after 2 years of interruption of studies
- Or if you followed training under the continuous training regime one of the previous 2 years
- Or if you are an employee, job seeker, self-employed

If you do not have the diploma required to integrate the training, you can undertake a validation of personal and professional achievements (VAPP).

Do you want to apply and sign up for a course? Please be aware that the procedure differs depending on the diploma you want to take, the diploma you have already obtained and, for foreign students, your place of residence. Let us be your guide – simply follow this link.

An interview will be proposed to the applicants to the first or second year of the master's degree in order to test their motivation.

Job opportunities

During the 2014-2015 survey, 6 graduates are in the labor market (job + research). Of these, 67% are employed 30 months after graduation.

Practicals informations:

- Component: UFR Chimie-Biologie
- Level: Baccalaureate +5
- Duration: 2 years
- Course type: Education in apprenticeship, Initial and Continuing Education, Professionalisation contract
- Location(s):
