- > Finance 1st year
- > Advances in finance and accounting 2nd year
- > Quantitative finance 2nd year
- > Banking and finance 2nd year / Valence
- > Corporate finance and risk management 2nd year

Presentation

The reputation of the Master's in Finance needs no further proof than its students' very high rate of professional placement (higher than 90% one year after graduation). It is recognised by national evaluations (programme evaluated A+ by the High Council for Evaluation of Research and

Higher Education, HCERES), as well as by any number of partnerships forged with firms from the finance sector.

The first year of the Master's in Finance can be taken, under the same conditions, at the Grenoble or Valence site, as initial training or continuing education (with no adjustment to the timetables). The four second-year programmes are based at the INP at both sites:

- Advances in Finance and Accounting - initial training in Grenoble
- Banking and Finance - sandwich training in Valence
- Corporate Finance and Risk Management - initial training in Grenoble
- Quantitative Finance - initial training in Grenoble (partnership with ENSIMAG Grenoble-INP)

Through the diversity of the programmes that it offers, the Master's in Finance gives all students the chance to fulfil their potential and acquire the knowledge and professional skills they will need in their chosen profession in the finance and banking sector

In two years, the Master's in Finance at Grenoble IAE sets out to train very high level executives working in financial firms and institutions. This high quality training is recognised nationally for the quality of the teaching given.

Skills

The foundation of skills common to students of the Master of Finance brings together the following points: advanced knowledge in finance, accounting, management control and law, professional skills in English and other living languages, a mastery of the computer tool and specialized software, the ability to formulate a professional project, to seek an internship, then a job and to fit into a professional framework, the ability to take initiatives

International education : Internationally-oriented programmes

Admission

Access conditions

1st year Master's degree: Application file and English test (TOEIC, TOEFL, BULATS, IELTS, CLES, Cambridge Assessment English ou test Erasmus+ OLS).

Access to 2nd year of master: Interview with a jury of teachers and professionals

To find out about the admission requirements, please consult our "apply" section directly on the Grenoble IAE website.

Public continuing education:

You are in charge of continuing education:

- if you resume your studies after 2 years of interruption of studies,
- or if you followed training under the continuous training regime one of the previous 2 years
- or if you are an employee, job seeker, self-employed.

If you do not have the diploma required to integrate the training, you can undertake a  validation of personal and professional achievements (VAPP).

Access the "apply" section directly on the Grenoble IAE website.
