Registration and scholarships

To access the 2nd year of the Finance quantitative master's degree : The candidate comes from the 1st year of the master's degree in Finance. The selection in this sector is based on a special test to ensure that students have sufficient prerequisites to follow the teachings of the specialty (very high level in mathematics and computer science). In the context of external recruitment: the candidate must demonstrate scientific training and :

- Have at least a 1st year master's degree in mathematics and / or computer science
- Or have validated a 2nd year of engineering school with a strong mathematics and / or computer component

To find out about the admission requirements, please consult our "apply" section directly on the Grenoble IAE website

Public continuing education : You report continuing education :

- if you resume your studies after 2 years of interruption of studies
- or if you followed a formation under the regime formation continues one of the 2 preceding years
- or if you are an employee, job seeker, self-employed

If you do not have the diploma required to integrate the training, you can undertake a process of validation of personal and professional achievements (VAPP). For more information, visit the website of the Directorate of Continuing Education and Training

Access the "apply" section directly on the Grenoble IAE website
